

Dashwood Medical Centre
Publication of GP Net Earnings

All GP Practices are required to declare the mean earnings (e.g. average pay) for GPs working to deliver NHS services to patients at each practice.

The average pay for GPs working in Dashwood Medical Centre in the 2017-18 financial year was £74,927 before Tax and National Insurance. This is for 2 full time GP, 4 part time GPs and 1 Locum GPs who worked in the practice for more than six months.

NHS England require that the net earnings of doctors engaged in the Practice is publicised and the required disclosure is show. However it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time doctors spend working in the practice and should not be used for any judgement about GP earnings, nor to make any comparisons with other practices.
